

Automatic Umbrella Wrapping Machine

WHO WE ARE

Wet Umbrella Guard is a limited liability company registered and based in Limerick, Ireland.

Formed in 2010, J&M Partners Ltd. is Worldwide distributor of Umbrella Wrapper.

Our principle product is the Wet Umbrella Guard, which is a machine that can automatically wrap a wet umbrella in a vinyl covering in order to contain any water which is on the umbrella.

This is especially useful for public buildings where a lot of people enter and exit from and works perfectly for keeping your public floors clean and dry.

COMPANY HAS BEEN ESTABLISHED AND IS SUCCESSFULLY RUN BY TWO ENTREPRENEURS:

MARTIN MLAKA has over six years experience in Hotel, Catering, Restaurant and Management with a further 5 years of experience in Aviation, Manufacturing and Health related Management. Prior to J&M Partners, Martin worked with a variety of public and private sector organisations in Europe (Slovakia, Ireland) and the USA. He holds a Masters of Business Studies in Management with specialization in public administration & regions management.

JARO MLAKA has been working in the public sector for the last 9 years and graduated from University of Presov, Slovakia with a Masters Degree in Business Management, specialising in Personnel & Marketing Management. He also received a Certificate in Retail Management from Denver, Colorado. Prior to J&M Partners he has worked as a Sales Assistant for BQE Wine & Liquors in Brooklyn and as a Shipping and Receiving Agent in Sandy's Office Supply, Aspen, Colorado.

WHAT WE DO

We specialise in the development of products for the customer services industry including:

- ◆ Hotels
- ◆ Restaurants
- ◆ Airports

and most other public places.

Our mission is to prove a necessity and image importance combined in our practical umbrella wrapper products to our customers.

KEEP YOUR ENTRANCE AREA AND FLOOR CLEAN & DRY

HOW?

1) Put the tip of your wet umbrella straight down into the slot on the top.

2) The umbrella is automatically wrapped in the waterproof vinyl bag when you fully insert it.

3) Pull out umbrella toward front slowly. Now you can carry your umbrella without dropping water on the floor.

Umbrella Wrapper is a unique way to keep your entrance area and floor clean and safe.

Many popular developments already trusted our solution and have equipped their entrances with **Wet Umbrella Guard** automatic umbrella wrapping machine.

SECOND.**

PRODUCT SHOWCASE

Improved Wide Slots

The wide slots allow wrapping umbrella in vinyl pouch without rolling it up by hands while it's wet.

Easy to Operate

Simple yet full operation manual information applied to the top cover of each unit.

Sturdy Durable Design

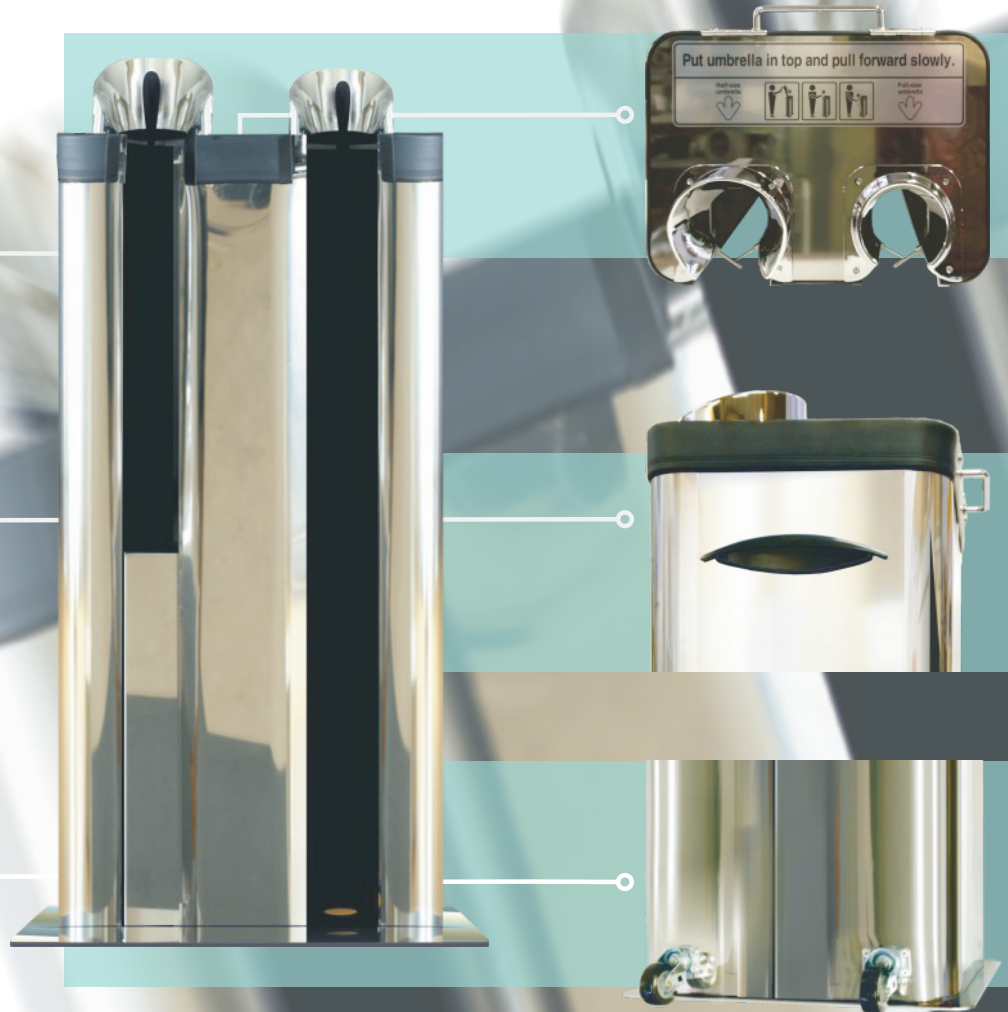

All umbrella wrappers are made of high grade materials including stainless steel for long problem free use even in busiest places. Solid appearance and aesthetic finish.

Functional Handle

For easy and safe relocation of unit, helps to identify remaining quantity of plastic bags inside without opening top cover.

Compact And Mobile

Designed to take very little space and fitted with industrial grade castors for full mobility when it's needed.
