# What TO EXPECT

from your session

---

## Before

As soon as you make the decision to book a session, contact me. We can discuss the specifics and talk about your vision for the session. This will allow me to get to know you and give me a better idea of what you are looking for. It is important to book as soon as possible to give yourself an adequate amount of time to prepare. Technically, the process is simple, but your session photos are going to last a lifetime so it is only logical to put thought and consideration into the style you would like to express.

## During

Our session will range from one to three hours at our selected location and time. Upon arrival, we will go over our schedule, address any last, minute questions, and then start the shoot. We will plan to experiment with many poses and spots within your chosen location. If you have something special in mind, be sure to share it with me.

## After

After your session, I will begin the photo editing process, including setting up your online gallery. This process generally takes two to three weeks. Once your gallery is complete, I will contact you via email with your link and password. This email will also include a product pricing guide with detailed ordering information and a link to our Online Store.

## \*Additional digital files

You can order additional photos for 10 euros per photo (you will then receive the photo as a digital JPEG in high resolution, without logo) The maximum price for all additional photos from the gallery is 99 euros. Even if there are more than 25 photos in the gallery page.
